

## Using Outdoor Sifter Scoops with Bubbles

Did you know that our Outdoor Sifter Scoops are perfect for making bubbles? The screen on the bottom of the Sifter Scoop aerates the solution resulting in sudsy sensory fun!

### Materials:

- Bubbles
- Outdoor Sifter Scoops
- Shallow pan or container

Pour bubble mixture into a shallow vessel. Dip the Outdoor Sifter Scoop screen-side down into the bubble mixture. Blow air through the open side of the Sifter Scoop and watch the bubbles fly!

### Teaching Tips

- Some children with sensitive skin can be irritated by traditional bubble liquid. Substitute with a natural dish soap. Add water to the dish soap to thin out the mixture until you get a perfect bubble-making consistency.

### Questions to pose:

- How do you think the bubbles are created?
- Do the different sized sifter scoops make different sized bubbles? Why or why not?
- What other items do you think we can use to make bubbles?
